

Environmental impact Report

In attention of:
[name, surname Head of JS]
[Address of JS]

(The submission of this report is MANDATORY for the projects which were subject to Environmental Impact Assessment, according to national legislation

This report may be filled in by all projects regardless of the Priority Axis or Measure if there is a consideration that their project contributed to environmental protection to some extend.

This report shall be sent to the Joint Technical Secretariat with each progress report and with the Final Report of the Project).

1. PROJECT DETAILS

Priority Axis:

Objective:

Project Code:

Project Title:

Geographical Location of project: (county/district, city)

Lead Beneficiary:

Date when the project was approved:

Date final report sent to JS :

2. PROJECT ENVIRONMENTAL IMPACT

Environmental issues		YES	NO	Additional informations
Air	<ul style="list-style-type: none"> ▪ Your project contains activities aimed with effect on the air quality <p><i>If yes, please specify if the effect is positive or negative.</i></p>			
	<ul style="list-style-type: none"> ▪ Your project contains activities with effect on the level of carbon dioxide emission or equivalent <p><i>If yes, please specify if the effect is positive or negative.</i></p>			
Water	<ul style="list-style-type: none"> ▪ Your project contains activities aimed with effect on the water quality <p><i>If yes, please specify if the effect is positive or negative.</i></p>			
Soil	<ul style="list-style-type: none"> ▪ Your project contains activities aimed with effect on the soil quality <p><i>If yes, please specify if the effect is positive or negative.</i></p>			
	<ul style="list-style-type: none"> ▪ The project includes activities aimed at rehabilitation the river banks? <p><i>If yes, please specify the length of the rehabilitated bank rivers.</i></p>			
Biodiversity	<ul style="list-style-type: none"> ▪ The project has activities with effect on the Natura 2000 sites? <p><i>If yes, please specify if the effect is positive or negative and mention the area of the Natura 2000 which might</i></p>			

	<p><i>be affected.</i></p> <ul style="list-style-type: none"> ▪ The project has activities with effect on the conditions and functions of terrestrial and aquatic eco-systems against anthropogenic degradation, habitat fragmentation and deforestation <p><i>If yes, please specify if the effect is positive or negative and mention the area of the eco-systems which might be affected.</i></p> <ul style="list-style-type: none"> ▪ The project focuses on implementation of management plans? <p><i>If yes, please specify the number of management plans which are aimed to be implemented through the project.</i></p> <p><i>If, your project only seeks to implement a part of a management plan please indicate this.</i></p>			
Energy efficiency	<ul style="list-style-type: none"> ▪ The project includes operations with impact on the reduction of the energy consumption? <p><i>If yes,,please specify the exact area:</i></p> <ul style="list-style-type: none"> ○ increasing energy efficiency ○ reducing energy consumption ○ use of renewable resources 			
Environmental Emergency	<ul style="list-style-type: none"> ▪ The project addresses/ treats environmental emergencies? <p><i>If yes, please present them briefly (Number and name of these activities)</i></p>			
Cultural heritage, historical heritage	<ul style="list-style-type: none"> ▪ Your project contains activities that affect cultural, historical heritage <p><i>If yes please specify whether positive or negative effect</i></p>			
Landscape, natural and national parks,	<ul style="list-style-type: none"> ▪ Your project contains activities having a positive impact on landscape, natural and national 			

protected natural areas and thermal springs	<p>parks, protected natural areas and thermal springs?</p> <p><i>If yes please specify whether positive or negative effect</i></p>			
Transport infrastructure	<ul style="list-style-type: none"> ▪ The project includes activities that have resulted in a shift from road to water transport? 			
	<ul style="list-style-type: none"> ▪ The project includes activities aimed at developing road transport infrastructure? <p><i>If yes, and if is related to building new roads, please specify the area of land occupied due to construction of transport infrastructure.</i></p>			
	<ul style="list-style-type: none"> ▪ The project includes activities aimed at developing River transport infrastructure? 			
Flood prevention	<ul style="list-style-type: none"> ▪ The project includes activities aimed at reducing potential flood areas and other flood prevention activities? <p><i>If yes, please specify approximately, the protected area due to project implementation (km²) and the number of persons which benefit following the implementation of the protective measures against flooding.</i></p>			

3. GENERAL ASPECTS

- The project is mainly focused on the environment protection?

YES

NO

Please indicate which type of contribution to environmental monitoring indicators applies to the project, and justify the choice.		
Environmental monitoring indicators	Type of contribution	Description of the contribution for the reporting period
Contribution to energy efficiency, renewable energy use and reduction of greenhouse gas (GHG) emissions	<i>neutral, positive effects, negative effects</i>	

Contribution to efficient water supply, waste-water treatment and water reuse	<i>neutral, positive effects, negative effects</i>	
Application of green public procurement in a systematic manner	<i>neutral, positive effects, negative effects</i>	
Contribution to efficient waste management, re-use and recycling	<i>neutral, positive effects, negative effects</i>	
Contribution to the development of green infrastructures including sound management of Natura 2000 sites on the Romanian side and equivalent natural protected areas on the Serbian side;	<i>neutral, positive effects, negative effects</i>	
Contribution to sustainable mobility and intermodality;	<i>neutral, positive effects, negative effects</i>	
Contribution to enhanced awareness of adaptation to climate change and risk prevention;	<i>neutral, positive effects, negative effects</i>	
Contribution to more employment opportunities, education, training and support services in the context of environment protection, risk management and sustainable development etc.	<i>neutral, positive effects, negative effects</i>	

4. OTHER ASPECTS

If you still have further comments on the environmental impact please insert them here.
